

KIP 5000 MODULAR, INTEGRATED PRODUCTION SYSTEM

Printing Versatility

- Supports all standard raster and vector formats
- PDF & Postscript file viewing and printing
- Integrated DWF format support
- Automatic file format detection

Monochrome and COLOR Copying

- Control advanced copy system features including mirror and invert
- Collated set copying of unlimited originals to KIP 5000
- Designate original type and copy quality preferences
- Full integration with a wide range of inkjet printers
- Real time image view for quality control assurance
- Set enlargement/reduction and number of copies
- **Direct color copying to inkjet printers**

Monochrome and COLOR Scanning

- Scan to TIFF and PDF formats for max resolution and color fidelity
- Preset quality selections for line, line/photo, gray scale and photo
- Color JPEG format minimizes file size for easy sharing via E-Mail
- Disk use gauge displays free hard drive space for scan storage
- Create single and multi-pages files from a variety of originals (TIFF, PDF, & DWF's)
- Monochrome scan production speeds up to 7.6" per second
- Color scan production speeds up to 2.6" per second

Range of Applications

- Full color photographs & graphic rendering
- Technical & design documents
- Maps & aerial photographs
- Poster & display artwork

Optional KIP Fold 500

- Integrated with KIP 5000 for online document folding
- Prints are folded and staked at full production speed
- Ultra-quiet operation and precise fold packets
- Space saving, single footprint design

KIP 5000

KIP 5000 Series Specifications

- Print Speed – **Eight 'D' per minute**
- Resolution – 600 x 600 dpi
- Max Print Width – 36"
- Min Print Width – 8.5"
- Warm Up Time – Instant from Standby
- Input Power – 120V +6% or -10%, 50/60Hz, 20A
- Maximum Power Consumption – 1.5 Kw
- Dimensions – 50" (W) x 24" (D) x 35" (H)
- Weight – 430 Lbs. (1 roll), 440 Lbs. (2 rolls)
- Media Weight

Plain.....	18 - 24lb
Tracing.....	18 - 24lb
Film.....	3.5 - 4 MIL
- Environmental Rating – Energy Star Compliant
